

TREMstop QuickComm

An Intumescent Firestopping Kit

Product Description

TREMstop QuickComm is a firestopping kit that consists of a metal frame and intumescent bars that can easily be added or removed as cables are either added or removed.

Basic Uses

TREMstop QuickComm is most often used with cable trays, but can also be used with blank openings that will house cable trays in the future. Building assemblies include concrete floors or walls and gypsum walls.

Features and Benefits

TREMstop QuickComm requires no special tools for installation or to add or remove intumescent bars. The kit comes with a smoke seal making it a fast and easy application where cables are often being run or removed. TREMstop QuickComm maximizes the opening by allowing for 100 percent visual cable fill.

Applicable Standards

UL 1479 (ASTM E-814)

Packaging

TREMstop QuickComm can be manufactured in almost any dimension to meet your needs. Contact your local Tremco representative for information on custom sizing.

Availability

TREMstop QuickComm is available from your local Tremco representative or distributor through out the United States and Canada.

Application/Installation

TREMstop QuickComm is for use in firestop systems. Specific installation instructions are included in each TREMstop QuickComm kit and are available online at www.tremcofirestop.com.

Floor installations

TREMstop QuickComm extends 3" from the underside of the surface of the floor and requires a minimum 3" clearance around the entire opening. One TREMstop QuickComm unit is required for a floor opening.

Wall installations

TREMstop QuickComm is inserted into the wall opening and requires an additional 3.75" of opening height and width to accommodate the unit when placed in the framed opening. One TREMstop QuickComm unit is required for a wall opening.

Limitations

- Not recommended for use with passive fire containment systems not listed or approved by Tremco.

Warranty

Tremco warrants its Firestop Materials to be free of defects, but makes no warranty as to appearance or color. Since methods of application and on-site conditions are beyond our control and can affect performance, Tremco makes no other warranty, expressed or implied, including warranties of MERCHANTABILITY and FITNESS FOR A PARTICULAR PURPOSE with respect to Firestop Materials. Tremco's sole obligation shall be, at its option, to replace or to refund the purchase price of the quantity of the Firestop Materials proved to be defective and Tremco shall not be liable for any loss or damage.
